

YAQUIS ON WARPATH, MENACE AMERICANS

Raid Ranches and Farms in
Sonora—Admiral Fletcher
Rushes Marines.

CHURCH PROPERTY TAKEN

El Paso, Tex., Dec. 11.—Yaqui Indians have taken the warpath against natives and foreigners alike in the Yaqui Valley of Sonora, a message from Guaymas today said.

The Richardson Construction Company, which owns 1,000,000 acres in the valley, has sent out an appeal to the American Consul at Guaymas asking that protection be furnished. The Indians are reported raiding farms, driving off stock, burning harvests of American and moving toward the experimental station.

Five hundred Indian warriors engaged Mexican troops for three hours Thursday along the Rio Grande, a battle between the Indians and the Mexican army, the result of the encounter has not been learned. Admiral Winslow, who is at Topolobampo, has directed the cruiser Raleigh, en route from Guaymas to Topolobampo, to proceed to Topolobampo, which is the nearest approach to the American settlement. The Raleigh is due to arrive there early tomorrow.

Indians attacked the garrison protecting the Southern Pacific employees engaged in repairing the bridge at Corral over the Yaqui River, but were driven off.

Catholic refugees from Hermosillo have brought word here that Gen. M. M. Diez, when he occupied Hermosillo in the name of Carranza, took possession of the residence of the Vice-Consul, refusing to let him remove any of his belongings.

Gen. Villa instead of coming to Juarez as announced last night, went to Chihuahua, according to announcements in Juarez to-night.

Among his officers it was said Villa planned a move south from Chihuahua city into Carranza territory and that he hoped to drive his way through Mexico city.

Advices from Mexico city to the local consuls declare that the Secretary of Public Instruction has prepared for resumption of educational institutions and procedure throughout Constitutional territory.

The opening of the several museums and the reopening of educational institutions closed under Huerta's regime is announced, says the press from Mexico city. The reorganization of the National University is begun and the modification of the laws on primary instruction are announced.

W. J. BRYAN IN CONTEMPT.

Court Order Rebukes Him for Not Qualifying as Witness.

Supreme Court Justice Whitaker signed an order yesterday directing William Jennings Bryan to show cause on December 22 why he should not be punished for contempt of court for his failure to appear yesterday for examination under an order of Justice Gieseler in a libel suit brought by Petros P. Tassoulas, a Greek importer, against the newspaper "Tribune."

The issues in the case involve interviews between Mr. Bryan and the former Greek Minister at Washington. The plaintiff got the order to examine Mr. Bryan, who went to his winter home at Miami, Fla., after the order had been served on him at the Hotel Biltmore last Saturday. He explained in a telegram to Justice Gieseler that he would be willing to testify in the case in Florida.

The order signed yesterday will not be effective unless served on Mr. Bryan, and it will be necessary for the plaintiff to get permission to serve him by publication.

MODEL OF TRADE ACCEPTANCE.

Credit Men Get Form From Reserve Bank.

The National Association of Credit Men has sent out to its members a circular giving interesting data regarding trade acceptances, which are available for reduction. The circular states that the association is in receipt of evidence that interest in trade acceptance is growing, as several members of the association have written to the New York office asking for a model acceptance form with a view to using it in their business. The circular then says:

"The matter was taken up with the Federal Reserve Bank in New York, which offers the following as a form satisfactory to the bank in connection with rediscounting:

NEW YORK, N. Y., November 16, 1915.
Twenty days after date, pay to John Doe & Co., or order, \$125.00. One hundred dollars and 12 1/2 cents. The obligation of the acceptor of this bill arises out of the purchase of goods from the Drawer, JOHN DOE & CO., JOHN DOE & CO., Trenton, N. J. A. P. Fish, Cashier.

"Across the face of the note the customer or acceptor writes the following: Accepted, Trenton, N. J., November 30, 1915. (Signed) JOHN JONES & CO., Cashier."

"The bank calls attention to the importance of this point, that the place of payment be definitely stated in the body of the bill by its maker, or, better still, that great care be exercised to make sure that the bank at which payment is to be made, under the terms of the acceptance, is in the same city or town as the home office of the drawer, to whom the bill is addressed. The bank feels that this is an essential point in the negotiable instrument law."

"Now, when money is in abundance and the negotiable privilege not needed is the time for the members of this association to prepare for the day when financial conditions will be different. Each should consider whether it is not possible to get customers now to see the advantage of developing credit acceptance system and of encouraging the habit of closing their accounts by the simple acceptance of a draft."

PENNSYLVANIANS HERE EXTOL STATE'S GLORIES

Mayor Blankenburg Tells Keystone Society's Diners
How He Downed Bosses in Philadelphia—Gov.
Brumbaugh Among the Guests.

FINDS A ONE TOED HORSE.

Michigan Scientist Also Discovers
A Three Toed Specimen.

ANN ARBOR, Mich., Dec. 11.—Dr. E. L. Troxler of the University of Michigan announced today that during explorations in the Black Hills in South Dakota during the last summer he discovered the major portion of the skeleton of a one toed horse. He also discovered a perfect skeleton of a three toed horse, which is also a rarity.

GUILBERT RETURNS TO HER OLD SONGS

Wonderful French Artist Sing-
ing at the Lyceum Changes
Her Programme.

STAGE NEWS AND GOSSIP

Yvette Guilbert is another refugee who has been compelled to come to this country on account of the hardships resulting from the war. The wonderful French artist frankly admits that she is broke. This is accounted for by the large amounts she was compelled to spend on the soldiers who were quartered in her house for many months.

Fortunately she is singing to large audiences at the Lyceum Theatre and some of what she has expended may be returned to her. At her concert on Friday, Miss Guilbert returned to some of the older songs in her repertoire and sang "La Gigue" and "La Femme Fatale." Tonight she repeats her first programme, which includes "Le Lien Serre," which she now has to sing at every concert. She will be heard again on Tuesday and Friday afternoon.

Miss Guilbert has some remarkably interesting old songs which she collected through the suggestion of Anstole France. They relate the story of Joan of Arc on verses written by a contemporary poet who heard all the stories of Joan's life. Even the music to which Joan and the soldiers entered the cathedral at Rheims are in the possession of the singer, who is anxious to introduce these pieces, which are unknown in this country, to some of the students in the colleges.

The Educational Alliance announces a performance of Ibsen's "Ghosts" with Agathe Harescu in the leading role. The other parts will be played by members of the Art Drama Players. It is to be hoped that the performance of the play will prove of educational value to the audience in the Straus Auditorium, since it will probably not supply them with diversion.

Now it is Al Johnson who will act Friday in a musical version of "Robinson Crusoe." The showman will make the production early in the spring after Mr. Johnson returns from Florida. The last preceding comedian who was to have this chance was Her Williams, but that scheme fell through. Edgar Smith and Harold Atteridge are to write the text. The music will be by Sigmund Romberg and James Hanley.

All but eight New York theatres are now offering their plays at half prices.

It is M. Waite of Dayton emphasized the blessings of city government by commission and Samuel H. Hare emphasized the greatness of the home State.

SEES HUMAN GROWTH CONTROL.

Science May Dictate Size and Weight of the Race.

PHILADELPHIA, Dec. 11.—That science is on the threshold of discoveries which will make it possible to retard or hasten the growth of human beings was the statement made today by Dr. M. W. Jacobs. He asserted that experiments with rats have proved that animals fed on certain proteins for extended periods maintain a constant weight, but as soon as other necessary constituents are added growth is resumed. He cited one instance in which a rat was kept stunted for 522 days, an age corresponding to about forty-five years in human life. By changing the diet growth was permitted to develop that would normally have taken place.

FOUR JUMP IN COLLEGE FIRE.

Hamilton Men Escape Injury in \$50,000 Blaze.

CUNYTON, N. Y., Dec. 11.—Four students at Hamilton College, jumped from the second floor of the Sigma Phi fraternity house, where they were asleep, early today when the building caught fire. The loss is estimated at \$50,000.

None of the four men, one of whom was William M. Bolstol of Brooklyn, were injured.

DO YOU REALIZE

That YOU, here in this happy, peaceful land, have been assigned a part in the present great world drama—the noblest role of them all?

Your part, assigned you by THE SPIRIT OF HUMANITY?

HELPER OF THE HELPLESS!
Helper of suffering, perishing children! They

are the greatest sufferers. They are perishing by thousands in POLAND.

That nation's children are being swept away by famine and disease. It is the war's most appalling feature today—the extermination of a nation's young—its very life and hope.

We are trying to save some. We can save many if generous Americans contribute generously at once.

Through these printed words you hear the cries of the Polish children—though they are far away. You see their little hands outstretched.

Surely you will give them bread. For their mothers have nothing to give them but their tears.

Your aid—the little or much that you can spare—will allay suffering and save lives.

And in some mother heart there will be a prayer of gratitude for you the unknown helper in the name of world-wide brotherhood and sisterhood.

In later days, when Peace has come, a greater happiness must be yours as you realize that YOU, TOO, HAD A PART, the noblest of them all, and PLAYED IT WELL.

TO-DAY spells LIFE
POLISH VICTIMS' RELIEF FUND.
AEOLIAN BLDG., NEW YORK:

I enclose \$..... for food for starving children in Poland. Please send official receipt.

Name.....
Address.....

Please make checks, etc., payable to "National City Bank for Polish Relief."

Money is turned into food promptly. Food is not diverted. It reaches and saves the starving. This humanitarian work is entirely non-political and non-sectarian. Cash contributions to date, \$162,807.50.
